Ronneby, Sweden | +46 700 220 360 | abod1973.haitham@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

A summary should be 3-5 lines in length, quantifies your relevant experience, and shows its value to the target position. You may showcase your education, certifications, experience, and key skills. The summary should be tailored to the targeted positions through keywords from the job description.

EDUCATION

Blekinge Institute of Technology, Karlskrona, Sweden

Aug 2022 – Jun 2027

- *M.Sc. in Artificial Intelligence and Machine Learning*
- Relevant Coursework: Advanced Machine Learning, Applied Artificial Intelligence, Bayesian Statistics, Deep Learning, and Advanced Software Engineering

TECHNICAL SKILLS

- Programming & Data: Python, SQL, Pandas, NumPy, SQLite, Excel, Matplotlib
- Machine Learning & AI: Scikit-learn, XGBoost, TensorFlow, Keras, PyTorch, OpenCV, supervised learning, deep learning, computer vision, model evaluation
- MLOps, Cloud & Development Tools: MLflow, FastAPI, REST APIs, Docker, Pytest, GitHub Actions, CI/CD, Microsoft Azure, Git, GitHub, Linux

WORK EXPERIENCE

NKT, *Machine Learning Intern*, Karlskrona, Sweden

Jan 2026 – Jun 2026

- Developed a reproducible Python computer-vision pipeline for 22 confidential side-scan sonar datasets, including anonymization, overlapping patch extraction, feature engineering, and reconstruction
- Implemented and benchmarked nine denoising approaches, including adaptive speckle filters, K-SVD dictionary learning, and a self-supervised blind-spot U-Net trained without clean reference images
- Evaluated noise reduction and structure preservation using Speckle Index, ENL, and visual analysis; identified Frost as the strongest classical method, reducing average SI from approximately 0.22 to 0.14
- Diagnosed contrast instability and image-dependent model failures, then presented performance trade-offs and recommendations for GPU-based tuning and hybrid denoising to NKT engineering stakeholders

Sävsjö Kommun, *Behavioral Support Specialist*, Sävsjö, Sweden

May 2022 – Present

- Support individuals with varying needs in daily activities, requiring responsibility, adaptability, patience, and clear communication

Blekinge Institute of Technology, *Student Ambassador*, Karlskrona, Sweden

Aug 2025 – Present

- Represent BTH at open days and recruitment events, answering questions about my program, admissions, and student life

PROJECTS

Movie Revenue Prediction MLOps Pipeline | [GitHub Repository](#)

Extended Course Project, Machine Learning

Mar 2026 – Jun 2026

- Built an end-to-end XGBoost pipeline using more than 1.15 million TMDb records, achieving 0.904 ROC-AUC and creating reusable preprocessing artifacts
- Deployed predictions through a FastAPI REST service and tracked experiments, metrics, and artifacts with MLflow
- Implemented a GitHub Actions CI/CD workflow that automatically runs pytest tests, builds the Docker image, and publishes validated images to GitHub Container Registry

E-Commerce Customer & Sales Analytics Dashboard | [GitHub Repository](#)

Independent Technical Project

Jan 2026 – Mar 2026

- Analyzed more than 100,000 Brazilian e-commerce orders to evaluate revenue, customer behavior, delivery performance, and satisfaction

- Built a SQLite analytics database and interactive Excel dashboard covering R\$15.5 million in revenue and more than 96,000 delivered orders
- Identified São Paulo as the highest-value customer region and found that shorter delivery times were associated with higher ratings

Adversarial Attacks on Facial Recognition | [GitHub Repository](#)

Course Project, Security in AI Systems

Oct 2025 – Jan 2026

- Fine-tuned ResNet-18 and ResNet-101 facial-recognition models, achieving 92.35% and 95.63% clean test accuracy
- Tested model vulnerability using FGSM, PGD, DeepFool, and adversarial patch attacks, with PGD reaching 100% attack success
- Strengthened ResNet-101 through adversarial training, reducing patch-induced misclassification from 95.08% to 3.28%

CERTIFICATIONS

- CS50's Introduction to Artificial Intelligence with Python, Harvard University, 2026 [Certificate](#)
- CS50's Introduction to Databases with SQL, Harvard University, 2026 [Certificate](#)

LANGUAGES & ADDITIONAL INFORMATION

- Arabic (native), English (full professional proficiency), Swedish (full professional proficiency)
- Category B driving license; access to a personal vehicle
